Banking, only better!

FOCUS ON FINANCIAL WELL-BEING

FREE financial wellbeing talks for employees

A founding principle of the credit union movement is education and at St. Joseph's Irish Airports & Aviation Credit Union, we have developed a series of 1-hour seminars designed to promote financial wellbeing. These include:

- ▶ Money Management
- ▶ Preventing Fraud & Financial Exploitation
- ▶ Financial Planning
- ▶ Achieving Your Financial Goals

At St. Joseph's Irish Airports and Aviation Credit Union

We are proud to serve the needs of airport employees, which we have been doing since 1962.

A lot has changed during those years. New ways of communicating, travelling and banking have all resulted in changes in how we access a wide range of products and services.

Committed to full service banking

Here at St. Joseph's, we embrace change, which is why we are committed to adopting new ways of meeting the day-to-day banking needs of our members, including:

- ▶ Online banking
- ▶ Current accounts
- ▶ Payroll deduction
- ▶ Budget money management
- ▶ E.F.T.
- ▶ Standing orders
- ▶ Debit card payments

Never stop improving

Because we know there is nothing more permanent than change, we continue to explore new ways of meeting the changing needs of members.

No compromise on personal service

But while we continue to focus on the changing needs of our members, there are some things we will not compromise on, including quality of service and the personal touch.
